Procedures and Guidelines

The following procedures and guidelines have been established for the After-School Enrichment programs sponsored by the Sharon Public Schools for the 2023-2024 school year:

We now offer the ability to **register and pay online through our website** at www.sharoncommunityeducation.com. There is **no** fee for this payment service. All families, if you haven't already done so, must create an account for the family and add the child to be registered for enrichment, as this is the method for taking attendance. Payment is required at time of registration.

If you have questions regarding any of these programs, please contact the Community Education Office, 181 Pond Street, Sharon, 781-784-1574, between the hours of 9:15 AM and 4:30 PM.

Acceptance will be on a first-come/first-serve basis. Should a class sell out a waiting list will be created.

Each program has been scheduled according to the instructor's availability, as well as the facility in which the class will be held.

Activities are run only if the school is in session with the exception of classes such as Ice Skating, Tennis, Horsemanship, and Kumon as they are held at outside venues. Classes are usually not scheduled on Early Release Days. In the event of postponement, due to weather conditions or instructor unavailability, class may be extended at the end of the scheduled session.

Snacks are **not** provided. Students attending an enrichment session should bring a snack from home.

The Sharon Public Schools reserves the right to terminate or limit a child's attendance in a program when, in the judgment of the staff, the child's behavior is inappropriate.

All programs are covered under the Town of Sharon's liability insurance policy while the programs are in session and are held on Town property. Outside venues are covered by their own policies.

All After-School Enrichment Programs must be pre-paid in full and all waivers **MUST** be completed and submitted at the time of registration. Waivers are found online at the time of registration. Also, document upload is available. If waivers are not completed at least one week before the class your child will not be able to participate in the activity.

If a child is absent from school, sent home early due to illness, or dismissed early from school then similar to procedure for after school sport activities, the child will not be able to attend Enrichment Classes later on that same day.

If a child misses the Community Education Van for any reason, parents, then emergency contacts will be notified, and they are responsible for driving the child to the program.

It is the responsibility of the parents or guardians to notify Bridget Maddalena at the Community Education office at bmaddalena@sharonschools.net or 781-784-1574 prior to 2:00 PM, if their child will be absent from the class. Communication with the child's school does not reach us.

Children are expected to ride on the Community Education Van to all the Enrichment Programs. If you choose to drive your child, stay with them, and drive them home, you must notify our office of this alternate transportation for each occurrence.

If a student has an outstanding tuition balance in any Community Education Program, he/she will not be eligible to participate in additional Community Education Programs, until the balance is paid.

Failure to pick up your child by the time indicated in the program description will result in a penalty fee of \$5.00 for each five-minute interval.

Refund Policy: Due to prior financial obligations, tuition is non-refundable. Refunds will only be given in the event of class cancellation, a medical limitation (a doctor's note is required), or if the class is over-subscribed. Classes are not made up due to child absence, but will be made up in the event of instructor absence or weather and emergency cancellations. Refunds are subject to a processing fee.

ACADEMICS

Kumon: MATH **Grades 1-5**

Let your child amaze you. Kumon is a program designed to help children master the basics of math and unlock the potential in each child. Students begin at a comfortable starting point, determined by our placement test, with worksheets that can be easily completed. Your child will master the basics and reach complete proficiency with each successive step. This is a wonderful opportunity for children who may be struggling in math or who would like to advance to the next level. Speed + Accuracy = Mastery.

PHYSICAL ACTIVITIES

The Joy of Yoga Grades K-2

When kids practice yoga, they get better with concentration and enhance memory, while improving strength, balance, and flexibility.

After-school yoga programs can not only help reduce stress, but they can help kids get fit and improve self-esteem – all of which help schools meet social emotional learning (SEL) standards.

There is a lot of evidence suggesting that social emotional learning plays a key role in a child's development. Kids yoga not only helps kids develop positive social skills and problem solve, but it leads to a happier and calmer classroom environment. It helps regulate emotions, manage stress and with problem solving.

CLASS DATES:

Monday, January 22, 29; February 5, 12, 26; March 4, 11, 18 **(8 Weeks) (NO CLASS 2/19)**

TIME: 3:45-4:45PM

LOCATION: East Elementary

TUITION: \$185

EQUIPMENT: Yoga Mats are required. If you do not have a Yoga Mat one will be provided. Mats are limited.

Transportation: One-way van transportation is provided to this program. Parents are responsible for picking up their child promptly at 4:45PM from the East Elementary Cafeteria (Door #2).

STEAM

LEGO ADVENTURES

Grades K-1

Get Your Lego Game On!

Are you a Lego master? If so, it's time to show off your skills! Each week in Lego Adventures, there is a new challenge to build: from skyscrapers to farms, bridges to airports, space stations to main streets, and everything in between! First, our Right Brain Curriculum instructors will review the history of what we are about to build: How airports graduated from landing strips to vast travel networks, how Depression-era farms survived hordes of grasshoppers, how aeroelasticity explains why the Tacoma bridge nicknamed "Galloping Gertie" collapsed. Then, it's time to build! You will create a model of each type of structure out of an enormous assortment of provided Legos, then present your creation as we photograph and document it. Learning and Legos: A perfect match!

CLASS DATES:

Monday, January 22, 29; February 5, 12, 26; March 4 **(6 WEEKS) (NO Class 2/19)**

TIME: 3:45-5:15PM

LOCATION: Cottage Street Elementary School

TUITION: \$180

Transportation: One-way van transportation is provided to this program. Parents are responsible for picking up their child promptly at 5:15PM from Cottage Street Elementary (Door #5).

LEGO FUTURE HOUSE

Grades 2-5

What will life on Earth be like in the year 2122? That is the question you will ponder as our Right Brain Curriculum teachers take you on a tour of smart homes, driverless cars, robotic chefs, self-sustaining skyscrapers and more. Learn how futurists predict life on Earth will evolve and discover how innovators around the world are changing it already. Then it will be your turn to do the imagining. You will create your own Lego house of the future – designing space-age furniture for every room in the house and a futuristic vehicle for the garage. Even the family pet will get a reboot! You will consider how virtual reality; climate change and interactive robots could change life on Earth and beyond. So, get in your virtual time travel machine and start designing your Future House!

CLASS DATES:

Friday, January 12, 19, 26; February 2, 9, 16 **(6 WEEKS)**

TIME: 3:45-5:15PM

LOCATION: Heights Elementary School

TUITION: \$185

STEAM

LEGO Challenges **Grades 2-5**

If you love building with Legos, this is the class for you! Each week you will be challenged to create a sensational Lego scene. Each challenge is a mystery that your teacher will reveal – A helicopter rescue scene? A space shuttle launch site? Lego Godzilla attacking a city?? Best be ready for anything! Then it's off to the races as you and a partner have limited time to create your scene and present it to the class. Presentation skills will be key as you try to persuade your classmates that your Lego creation is #1. Our Right Brain Curriculum Instructors will help you use persuasive language, eye contact and proper posture for perfected presentations. Legos and Public Speaking, now that's a match!

CLASS DATES:

Tuesday, January 9, 16, 23, 30; February 6, 13

STEAM

Public Speaking **Grades 2-5**

Public speaking and presentation skills are critical! We say it is never too early to start learning these talents! Elementary and middle school students who learn skills like making eye contact, using a loud voice, scanning their audience, speaking from notes and making persuasive arguments will be confident and powerful speakers. Using fun and engaging activities to teach public speaking and presentation can help make a sometimes-scary task much less daunting. Our students write and deliver informative and persuasive speeches on fun topics of their own choosing, learning how to organize what they want to say and deliver it in a powerful and persuasive manner. Students also play fun public speaking games, engage in mini-debates on kid-friendly topics and create a classroom newscast featuring news anchors, weather reports, sports updates, and movie reviews! Let's make public speaking fun!

CLASS DATES:

Thursday, January 4, 11, 18, 25; February 1, 8

Transportation: One-way van transportation is provided to this program. Parents are responsible for picking up their child promptly at 5:15PM from East Elementary Cafeteria (Door #2).

Business Sharks **Grades 2-5**

In our Business Sharks class, students play the role of young entrepreneurs as they start with the germ of an idea for a business and product and take it through the entire entrepreneurial process. Our students develop prototypes, formulate a business plan and devise a marketing strategy. Meanwhile, students learn concepts such as business plans, profits and branding while designing print ads, acting out "TV commercials," researching real estate locations and designing their storefronts. The class concludes with our young executives pitching their ideas to a "Shark Tank" of parents on the last day of class. These students will really be taking care of business!

NASA ASTRONAUT TRAINING Mission X: Train

Like an Astronaut Grades 2-5

In this mini course, you will perform exercises similar to the training of real NASA astronauts. We will practice training with an actual NASA curriculum that was designed to teach about strength, agility and cardiovascular endurance. There will even be crew survival challenges enhancing social emotional learning. We will have the opportunity to design and fly water rockets, and study the effects of gravity on the human body. An integral part of the class will be the assembling of NASA provided cardstock models, enabling the students to explore and study the latest in space flight vehicles.

CLASS DATES:

AI ADVENTURES

Grades 1-5

This course is designed to introduce your child to the world of Artificial Intelligence and inspire their creativity and curiosity.

In this class, your child will have the opportunity to work with some of the latest and most cutting-edge AI technologies, such as ChatGPT, Stable Diffusion, DALL-E, and Novel.ai. They'll learn how to use these tools to create their own animations, short stories, and even films! Through hands-on activities and projects, your child will learn how AI works and how it can be used to solve problems and give them new outlets to express their creativity. They'll get to practice their critical thinking and collaboration skills as they work on projects with their classmates.

Some of the exciting activities your child can look forward to include:

- Using Novel.ai to create their own short stories with AI assistance
- Creating artworks with state-of-the-art image production models from OpenAI such as DALL-E and Stable Diffusion
- Creating an AI clone of their own voice
- Collaborating with their classmates to design an AI-controlled chatbot that roleplays as their favorite characters

Our expert instructors will guide your child through these activities, answering their questions and helping them explore the limitless possibilities of AI!

TEAM BUILDING & COOPERATIVE GAMING

DUNGEONS AND DRAGONS

Grades 2-5

Our exciting and imaginative program provides a fun and engaging way for students to develop their social, problem-solving, and teamwork skills while exploring the thrilling world of D&D.

Students are grouped into teams and assigned a dungeon master, who will guide them through a fantastical world filled with monsters, treasure, and challenges. Students will work together to overcome obstacles and complete quests, fostering a sense of camaraderie and teamwork that will serve in all areas of life.

Not only is D&D an incredibly fun and engaging game, but it also promotes creativity, imagination, and critical thinking skills. Through role-playing and storytelling, students will develop their communication and social skills, while also building their confidence and self-esteem.

Join us on an epic adventure that will leave you with memories to last a lifetime!
